ESD Levelling Base

Technical Specifications:

1. Adjustable Height - 36mm
2. Surface Resistivity - 10^2 to 10^5 Ohms/sq.mm
3. Conductive Polymer is made of Homogeneous Carbon bond linkages.
4. Technical parameters of the compound do not change w.r.t. Time.

The design shows stresses developed in the ESD Leveller after applying 175 kgs.

Maximum deformation is 0.85 mm (Red region)
